

INGRAM FRASER.

STAT

16th. June, 1960

My dear Allen —

Although it is nearly twenty years since the days of Rockefeller Center, when I rang you this morning I firmly expected that my identity would register at once. We saw a lot of each other in and out of working hours and were on first name terms (hence the superscription), but it is a long time ago and one does forget.

I would very much like to see you for a quick quarter hour for old times' sake, if you can fit it in before you go to Paris. In the next few weeks I expect to be living there permanently, after fifteen years of top-level international business throughout Europe.

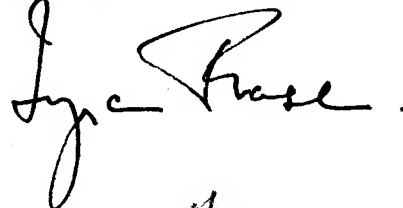

An idea has been turning over in my mind for the past few months, and I believe you would find it interesting and workable. Because of your fortuitous presence in London I seized on the chance of contacting you.

So, if you can spare a few minutes, please do. In any case I would greatly enjoy seeing you again, however briefly, and to convince you that we shared quite a few problems and exciting experiences, including the educational establishment near Toronto.

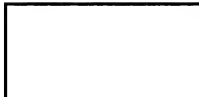

The above address is that of my office and my private number is 

With my warmest regards,

As ever —

Mr. Allen W. Dulles,

(EXECUTIVE REGISTRY FILE  )

MEMORANDUM FOR: The Record

The writer of the attached letter attempted to get in touch with the Director during his recent visit to London (12-19 June 1960). However, Mr. Dulles did not recall him other than a rather vague recollection of several conversations during "the early days" of OSS in New York. The Director did speak to Mr. Fraser -- but very briefly.
